Sedelogic 2-Layer Saddle Pad: Extra Comfort and Shock Absorption

The Sedelogic 2-layer saddle pad provides extra comfort and support thanks to its dual shock-absorbing layers. This pad is ideal for disciplines such as jumping, dressage, and endurance, where optimal pressure relief and stability are essential.

Key benefits:

- Extra shock absorption for improved pressure distribution.
- Versatile: Perfect for jumping, dressage, and endurance.
- Lightweight and breathable design for long-lasting comfort.

Why choose a Sedelogic saddle pad?

? **Comfort and protection:**
A Sedelogic saddle pad offers unparalleled comfort and cushioning between the saddle and your horse's back. It helps reduce pressure points and absorbs shocks during riding, ensuring a more comfortable experience and reducing the risk of injuries for your horse.

? **Optimal fit:**
A Sedelogic saddle pad can compensate for minor irregularities in the saddle's fit. It provides extra lift or padding where needed, ensuring even pressure distribution. This is ideal for horses with an atypical back shape or when the saddle doesn't fit perfectly.

? **Breathable and moisture-wicking:**
The unique 3D-woven structure of Sedelogic saddle pads effectively wicks away heat and moisture, keeping your horse's back drier during rides. This prevents chafing and skin irritations, essential for maintaining healthy skin.

? **Durability and hygiene:**
A Sedelogic saddle pad not only protects your horse's back but also your saddle. It prevents sweat and dirt from coming into direct contact with the saddle, prolonging its lifespan. The pads are also easy to clean and maintain, ensuring a fresh and hygienic layer every time.

? **Innovation and science:**
The Sedelogic saddle pad is the first of its kind, developed using extensive pressure measurements and advanced technologies. A team of veterinarians, engineers, and saddle makers has designed this unique, performance-enhancing saddle pad using aerospace techniques. Suitable for both top-level athletes and recreational riders, it can be used in all equestrian disciplines.

? Choose a Sedelogic saddle pad and experience the perfect balance between comfort, protection, and performance – an investment in your horse's well-being and your gear's longevity!

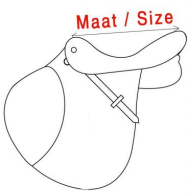

- Perfect pressure distribution
- Super shock absorption
- Good ventilation
- Lightweight

Features

Discover the ultimate comfort and unrivaled performance of our revolutionary saddle pad. With a range of unique features, this pad provides a riding experience that you and your horse have never experienced before:

- Excellent shock absorption: Thanks to advanced technologies, our saddle pad offers unparalleled shock absorption. It absorbs every impact during riding, significantly reducing pressure on your horse's back. Enjoy a smoother ride and protect your horse's health.
- Breathable structure: Our saddle pad features a breathable structure that allows for optimal air circulation. This promotes ventilation and prevents heat and moisture buildup under the saddle. Your horse stays cooler and more comfortable, even during intense training sessions.
- Perfect pressure distribution: With an advanced design, our saddle pad ensures perfect pressure distribution over your horse's back. It minimizes pressure points and prevents discomfort while riding. This allows your horse to move freely and perform at its best.
- Efficient heat dissipation: Our saddle pad is designed to efficiently dissipate heat. The advanced material regulates temperature and prevents excessive heat buildup under the saddle. This keeps your horse cool and protected from overheating, even during long rides.
- No pressure points: Thanks to carefully engineered construction, our saddle pad eliminates pressure points completely. It evenly distributes the pressure across the entire surface, giving your horse full freedom of movement and unhindered performance. Prevent irritations and discomfort for a happy and healthy horse.

Experience the ultimate combination of comfort, protection, and performance with our innovative saddle pad. No more compromises when it comes to riding comfort and well-being. Choose a saddle pad that meets your highest demands and give your horse the ride it deserves.

SOLARIUM IRRIGATION TREADMILL SAFETY WALL WALKER

““I have been using the Sedelogic pads for a number of years and am incredibly happy with them. From day one they have held their shape and are as good today as they were the first day I used them. They are thin enough to not affect the fit of my saddles, but have enough cushion to keep my horses backs happy.””

— Robert Mendoza- Grand Prix Show Jumper

“Every horse is different, so every horse has his own pad for the best performances. That’s only possible with Sedelogic. I train Wotan for example with the Orthopad so the saddle gets slightly lifted in the back. For him, it’s the perfect solution to give his best in every competition.”

— Remco Bouwens

SOLARIUM IRRIGATION TREADMILL SAFETY WALL WALKER

““I’ve been riding dressage and XC schooling in the Sedelogic Pad with my horses. My feelings are that they are very light, easily worn, an exceptional fit, and as far as I can tell very effective! I’m lucky because my saddles all fit very well. The pad does not interfere with saddle fit and I think very probably that the Sedelogic pad adds to their effectiveness, especially competing in a sport where being perfect all the time is probably not possible. These pads are going to add to those tools that will make yours and your horses life easier and better”.”

— Jonty Evans

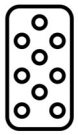

“Very grateful for this!!! We received it today and tried it out immediately, Top! We now have three different types and can use all three, We've exchanged our gel pads for the Sedelogic pads because the horses move superbly under them.”

— Marc-Peter Spahn & Ykje Baron
