# Walker Fencing Sublime for roofs

# Inside and outside ring including gate

Fencing for a 18-meter roof / Article no. 17-4-30-10018

Our sustainable steel fencing for track roofs and Ifull roof covers, crafted with high-quality steel C-profiles. Each truss section is equipped with 2 fencing sections, which can be filled according to your preference with plastic boards, pressure-treated wood boards, or hardwood planks. Explore the versatility and quality of our fencing options for a stylish and functional addition to the roof.

All steel components are thermally galvanized, and the fencing is supplied with all necessary fastening materials.

- Safe
- Sustainable
- Strong
- Smooth finish

### **Features**

#### **Outside Fencing:**

The robust and durable fence for the roofs, with a height of 1.6 meters for optimal safety. The posts between the rafters, securely connected to purlins, are cast in concrete for additional stability. The steel C-profile below, above, and doubled in the middle is suitable for boards up to 32 mm thick, resulting in an extremely solid enclosure. The outer fence also includes a gate of 2x2 meters, with a C-profile below and above suitable for boards up to 32 mm thick. The upper part of the gate is standardly equipped with bars, providing a perfect combination of safety and aesthetics.

#### Inside Fencing:

With a height of 1.6 meters, our indoor fence provides optimal safety. The posts are cast in concrete for extra stability. The C-profile below, above, and doubled in the middle is suitable for boards up to 32 mm thick, resulting in an extremely solid enclosure.

The indoor fence features a gate of 2x1.6 meters, with a C-profile below, above, and doubled in the middle, suitable for boards of up to 32 mm thick, including 1 heavy-duty beam where the gate is suspended between.

Discover the durability and safety of our indoor and outdoor enclosures for a stylish addition to your canopy.
