Wrapflex

20R

20R Elastic element / Article no. 11-1-00-00100

A component for smooth and reliable power transmission. This coupling can absorb shocks and reduce vibrations.

- ✓ Low initial costs
- ✓ Easy to install
- ✓ Protects equipment
- ✓ Safety first

SAFETY WALL

WALKER

Features

Optimal Power Transmission:

The coupling is designed for efficient and reliable power transmission in various industrial applications.

Shock Absorption:

Thanks to advanced technology, the coupling can effectively absorb shocks, promoting the equipment's lifespan.

Vibration Reduction:

The Wrapflex coupling reduces vibrations, contributing to a smoother operation of machinery and systems.
