Image not found **Safety first**

Features

Optimal Power Transmission:

The coupling is designed for efficient and reliable power transmission in various industrial applications.

Shock Absorption:

Thanks to advanced technology, the coupling can effectively absorb shocks, promoting the equipment's lifespan.

Vibration Reduction:

The Wrapflex coupling reduces vibrations, contributing to a smoother operation of machinery and systems.

Specifications

Basic material	PUR
Diameter	124mm
Suited for	Sublime Horse walker
Colour	Green
