

Zephyr

solarium with warm air blowers

Zephyr MaXuSS 18 Kw / Article no. 20-5-30-00400

Zephyr not found or type unknown

The Zephyr horse dryer is an indispensable part in the proper care of every horse. By means of a Q-line horse dryer you can treat your horse with warm air after a wash

The dryer is ideal for drying your horse after a wash. By drying your horse faster, there is less chance of a cold or other respiratory ailments. The muscle elasticity is promoted by the heat of the dryer and has a soothing effect on injuries.

Zephyros the ancient Greek name for the west wind, which is generally light and beneficial.

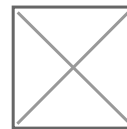

It has evolved into "zephyr" which gives a gentle warm breeze. The Zephyr has warm air blowers to dry your horse quickly after a wash. The blowers are infinitely adjustable. This allows you to quickly and easily set the desired temperature and air speed for your horse.

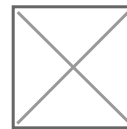

18KW drying power

Fast drying

Air flow adjustable

Temperature adjustable

Extra infrared heat

Additional lighting

Features

Safety:

The Q-line® solariums are finished with rounded sides and corners, which eliminates the risk of injury to your horse. The lamps are placed higher than the bottom surfaces and cannot fall out of the socket. This minimizes the chance of contact with the warm IR lamps.

Durability:

The heat-resistant plastic is insensitive to corrosion and ensures minimal heat loss and high efficiency,

The infrared lamps in the Q-line® solariums are designed in such a way that, unlike other lamps, they can withstand intense heat for a long time and can burn for up to 5000 hours.

Appearance:

The Q-line® dryer has a stylish appearance and a sleek finish. All solariums are ready to plug in and can be easily attached.

The blowers are infinitely adjustable. This allows you to quickly and easily set the desired temperature and air speed for your horse.

Maintenance:

The Solaria require very little maintenance. Due to the technologically advanced design and the materials used, there is virtually no wear or corrosion, which means that hardly any maintenance is required.

Quality mark:

All Solaria comply with the machine directive 2006 / 42EG and are provided with the CE mark as standard. The Q-line® solariums are also tested ex works according to the NEN 3140 and OSH directive and therefore meet all European safety requirements.

Standard options

Electric Lift 170 Heavy Duty
Electric Lift 170 Heavy Duty

Specifications

Length	2400 mm
Width	1300 mm
Drive system	800 mm
Drive system	110 kg
Basic material	Reinforced heat resisting plastic
Colour	Black / Silver Grey
Number of IR lamps	6x 250 Watt
Power supply	3xL+N+PE 400 Volt
Power usage	20050 Watt
Fuse with	3x 32A
Air blower	12x 90m3, automatic at 30grC
Other	9 warm air blowers, 2Kw
Suspension	4x chians (1 meter) and swing hooks
Suplied as standard	Control box including cables
Quality mark	CE / NEN 3140 / OSH
IP rating	54
Transport weight	150x85x170 cm
Transport size	135 Kg
