SOLARIUM

IRRIGATION

TREADMILL

SAFETY WALL

WALKER

Features

Safety:

The control box is splash-proof and equipped with a lockable main switch.

Appearance:

The control box has a power cord with plug and a cable of approx. 10 m including plug for the solarium.

Maintenance:

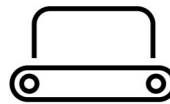

Due to the technologically advanced design and the materials used, there is virtually no wear or corrosion, which means that hardly any maintenance is required.

Quality mark:

All control boxes comply with the machine directive 2006 / 42EG and are provided with the CE mark as standard. The boxes are also tested ex works according to the NEN 3140 and ARBO directive and therefore meet all European safety requirements.

Service:

The solarium can be switched on and off with the switch
