## Features

### Safety:

The control box is splash-proof and equipped with a lockable main switch.

### Appearance:

The control box has a power cord with plug and a cable of approx. 10 m including plug for the solarium.

### Maintenance:

Due to the technologically advanced design and the materials used, there is virtually no wear or corrosion, which means that hardly any maintenance is required.

### Quality mark:

All control boxes comply with the machine directive 2006 / 42EG and are provided with the CE mark as standard. The boxes are also tested ex works according to the NEN 3140 and OSH directive and therefore meet all European safety requirements.

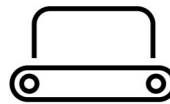

### Control:

With the potentiometer the total time can be set.

The IR lamps are switched with the on / off switch.

The fans can be switched off or on and there is an "automatic" position. In this position, the fans do not switch on until the temperature in the solarium is 30°C.

The LED lighting can be switched on with the dedicated switch.

## Specifications

<b>Length</b>	24 cm
<b>Width</b>	19 cm
<b>Drive system</b>	9 cm
<b>Drive system</b>	8 Kg
<b>Colour</b>	Grey
<b>Time</b>	30 min adjustable
<b>Housing</b>	Plastic
<b>Fixings</b>	Included
<b>Power cord</b>	Included
<b>Cable length</b>	10 meter
<b>Power supply</b>	L+N+PE 230 Volt
<b>Switching capacity</b>	3600 Watt
<b>Fuse with</b>	16 A
<b>IP rating</b>	65
<b>Quality mark</b>	CE / NEN 3140 / OSH
<b>Transport size</b>	42,5 x 32 x 30 cm
<b>Transport weight</b>	9 kg
