## Hand winch for solarium

### Manual lifting

Hand winch for solarium / Article no. 21-5-70-00040

Hand winch for hoisting the solarium, ideal when different heights at the withers are present in the stable. The hand winch can also be used to raise the solarium to a certain height so that it is easy to walk underneath with the horse.

Comes with: clear operating instructions, mounting material for the ceiling and mounting set for the solarium.

## Features

### Safety:

The Q-line® hand winch is equipped with an automatic brake, as soon as the handle is released, the winch will brake immediately.

### Durability:

The Q-line® hand winch is made of treated steel, making them resistant to corrosion and having a very long service life.

### Maintenance:

The hand winch requires very little maintenance. Due to the technologically advanced design and the materials used, there is virtually no wear or corrosion, which means that hardly any maintenance is required.

### Quality mark:

The winch is standard provided with the CE mark, winches are also tested ex works according to the NEN 3140 and ARBO guidelines and therefore meet all European safety requirements.
