Safe and Innovative Indoor Arena Wall from Q-Line – Tailored to Your Equestrian Needs

1. Advanced Safety Wall Arena Wall:

Q-Line is proud to offer a range of Safety Wall arena walls, designed to maximize safety in equestrian facilities. These walls are not only safe and durable but also tailored to your specific needs and aesthetic preferences.

2. Three Types of Panels:

Basic Panel:

This panel is made from black regenerated plastic and offers all the qualities of new material. It is exclusively available in black and is an excellent choice for equestrian centers looking for functionality and durability.

Sublime Panel:

For a more personalized appearance, we offer the Sublime Panel, available in any desired RAL color. Made from new material, this panel offers an aesthetically pleasing option for your facility.

Sublime Panel with UV Stabilizer:

Specially designed for outdoor use, this panel contains a UV stabilizer. This makes it ideal for equestrian centers looking to upgrade their outdoor facilities with durable and color-fast panels.

3. Tough and Nearly Unbreakable Material:

All variants of our Safety Wall panels are made from specially selected plastics that offer exceptional toughness, making them nearly unbreakable. This feature ensures a long lifespan and minimal maintenance requirements.

4. Shock Absorbing and Easy to Maintain:

Each panel is designed with our patented shape for stability and optimal shock absorption. Moreover, they are easy to clean thanks to the dirt-repellent surface.

5. Flexible Installation Options:

Whether you choose a DIY installation or hire the expertise of Q-Line, our panels are easy to install against any straight backing structure, quickly and efficiently transforming your indoor arena.

6. Full Range and Ordering Information: Discover our Safety Wall panels and choose the option that best suits your equestrian center. For more information or to place an order, please contact us at +31(0)546633700 or info@Q-Line.com.

SAFETY WALL

WALKER

Features

Safety:

Due to the smooth surface and shock absorption of the Q-line® Safety Wall, you and your horse are perfectly protected against contact with the side walls of the equestrian center

Durability:

The Safety Wall Basic panels are made of a special waterproof and shock-absorbing recycled synthetic material for use in riding schools and will last a lifetime. Due to the black coloring, the basic Safety Wall panel is UV resistant.

Appearance:

A stylish design, available in black only.

Maintenance:

Due to the smooth surfaces and non-stick properties, dirt and dust will not stick on the Safety Wall. You can keep the Safety Wall clean quickly and easily by simply rinsing it.

Easy to assemble:

The Q-line® Safety Wall is designed to be particularly user-friendly. With a few mounting points, it is easy to install on the wall of the riding school without any technical knowledge.
