Lubrication systems

Basic automatic lubrication system

Lubrication system 12 months / Article no. 23-4-00-00150

Proper lubrication of the rotating parts is essential to reduce failure and increase exerciser life.

An automatic lubrication system intended for automating and centralizing grease lubrication is a solution. The system consists of a hose with couplings and a grease cartridge.

The grease cartridge works without a battery and is adjustable between 1 and 12 months. Depending on the use of the exerciser, you set the period.

This lubrication system is ideal for all ground-mounted exercisers.

- Replaceable grease cartridges
- 🔼 Low installation costs
- Compact and reliable
- 12 months maintenance free
- Temperature range -15° C to +60°C
- Multifunctional, indoor and outdoor
- No chemical waste

TREADMILL

Features

Safety:

By lubricating the ring bearing of the exerciser in time, problems due to wear are less likely to arise.

Durability:

Lubrication of rotating parts ensures a longer service life.

Appearance:

All lubricants are Multi purpose grease.

Maintenance:

Maintenance is conservation, this also applies to the exerciser.
