**WALKER**

Discover our powerful self-priming pump, perfectly suited for basic 20x40 and 20x60 pop-up irrigation systems. This pump comes with a power cord, a working switch, a 7-meter suction hose with a spring-loaded check valve, and a 5-meter delivery pipe to the irrigation system.

Our self-priming pump effortlessly draws water from any source. With a maximum suction depth of 8 meters, this pump can lift various types of water, making it ideal for diverse applications.

This pump is positioned above the water, ensuring the motor does not come into direct contact with it. The motor support is made of durable aluminum, and the impeller and diffuser are crafted from high-quality technopolymer. Stainless steel snap rings provide extra strength, and the mechanical seal consists of graphite/ceramic for optimal performance. The motor shaft is made of stainless steel AISI 304. Additionally, the pump is equipped with a built-in thermoamperometric protection and a permanently connected capacitor in the single-phase motor version.

Please note: this pump cannot be connected to an outdoor tap due to insufficient water supply for optimal operation.

If you want to learn more about our self-priming pump or are looking for a reliable solution for your irrigation needs, contact us. Our pump is specifically designed for basic pop-up irrigation systems, offering powerful performance for every situation. Discover the benefits of our pump today!

## Features

Motor support made of die-cast aluminum, end plate seal made of steel AISI 304.

Mechanical seal made of graphite/ceramic.

Rotor shaft made of steel AISI 304. Impellers, housing, and diffuser made of technopolymer.

Wearing rings made of stainless steel.

Motor protection class: IP 44.

## Specifications

<b>Suited for</b>	26-5-12-02040 / 26-5-12-02060
<b>Connection</b>	1"
<b>Required liters</b>	0,6-7,2 m3/h
<b>Required working pressure</b>	5,7-1,65 bar
<b>Housing</b>	pump housing stainless
<b>Length</b>	pump 46 cm
<b>Width</b>	pump 17,5 cm
<b>Height</b>	pump 21 cm
<b>Weight</b>	pump 15,1 kg
<b>Included</b>	Suction hose 7 m incl. spring-loaded check valve
<b>Other</b>	5 mtr press pipe 32mm PVC
<b>Cable length</b>	5 mtr
<b>Quality mark</b>	CE
<b>Colour</b>	Green
<b>Suplied as standard</b>	Isolator switch
<b>Power supply</b>	230 V
<b>Power cord</b>	230 V L+N+PE
<b>Power usage</b>	1,4 kW
<b>Ampere</b>	6,3
<b>IP rating</b>	IP44 (IP55 on the connection box)
<b>Transport size</b>	500x25x25 cm
<b>Transport weight</b>	20 kg
