

Dressage Contour saddle pad

Performance enhancing pad

Medium black / Article no. 810-5-02-24114

The Sedelogic Dressage Contour saddle pad provides a complete solution for under the saddle. The pad section is thicker and has the same properties as the standard 2-layer saddle pad. Additionally, the saddle pad accurately follows the contours of the saddle.

A saddle pad from Sedelogic is an essential accessory that offers numerous benefits for both your horse and yourself during riding. Here are some reasons why we highly recommend using a saddle pad:

- ✓ Perfect pressure distribution
- ✓ Super shock absorption
- ✓ Good ventilation
- ✓ Lightweight

Comfort and protection: A saddle pad provides extra comfort and cushioning between the saddle and your horse's back. It helps reduce pressure points and absorbs shocks during riding, making your horse feel more comfortable and less prone to injuries. **Proper fit:** A saddle pad can accommodate minor imperfections in the saddle fit. It can lift or fill the saddle slightly, distributing the pressure more evenly across your horse's back. This is especially useful if your horse has a slightly irregular back shape or if the saddle doesn't fit perfectly.

Sweat absorption: Your horse can sweat heavily during riding. A high-quality saddle pad can absorb and wick away sweat, keeping your horse's back drier. This helps prevent skin irritations and chafing, which are essential for maintaining a healthy skin.

Hygiene: Using a saddle pad also facilitates the cleaning and maintenance of your saddle. It protects the saddle from direct contact with your horse's sweat and oils, prolonging its lifespan and reducing dirt buildup. Moreover, the saddle pad is easy to remove and wash, ensuring you always have a clean and fresh underpad.

Overall, using a saddle pad offers many benefits for the well-being and comfort of your horse, as well as the durability of your saddle. It is important to choose a high-quality saddle pad that suits your specific needs and matches the type of saddle you use.

The Sedelogic saddle pad is the first saddle blanket developed to be used under the horse's saddle, with extensive pressure measurements conducted. A team of veterinarians, technicians, a scientist from an academic hospital, and a renowned saddle maker have utilized aerospace techniques to develop this unique and performance-enhancing saddle pad. This saddle pad is suitable for all disciplines in equestrian sports, catering to both top athletes and recreational riders.

Features

Discover the ultimate comfort and unrivaled performance of our revolutionary saddle pad. With a range of unique features, this pad provides a riding experience that you and your horse have never experienced before:

- **Excellent shock absorption:** Thanks to advanced technologies, our saddle pad offers unparalleled shock absorption. It absorbs every impact during riding, significantly reducing pressure on your horse's back. Enjoy a smoother ride and protect your horse's health.
- **Breathable structure:** Our saddle pad features a breathable structure that allows for optimal air circulation. This promotes ventilation and prevents heat and moisture buildup under the saddle. Your horse stays cooler and more comfortable, even during intense training sessions.
- **Perfect pressure distribution:** With an advanced design, our saddle pad ensures perfect pressure distribution over your horse's back. It minimizes pressure points and prevents discomfort while riding. This allows your horse to move freely and perform at its best.
- **Efficient heat dissipation:** Our saddle pad is designed to efficiently dissipate heat. The advanced material regulates temperature and prevents excessive heat buildup under the saddle. This keeps your horse cool and protected from overheating, even during long rides.
- **No pressure points:** Thanks to carefully engineered construction, our saddle pad eliminates pressure points completely. It evenly distributes the pressure across the entire surface, giving your horse full freedom of movement and unhindered performance. Prevent irritations and discomfort for a happy and healthy horse.

Experience the ultimate combination of comfort, protection, and performance with our innovative saddle pad. No more compromises when it comes to riding comfort and well-being. Choose a saddle pad that meets your highest demands and give your horse the ride it deserves.

““I have been using the Sedelogic pads for a number of years and am incredibly happy with them. From day one they have held their shape and are as good today as they were the first day I used them. They are thin enough to not affect the fit of my saddles, but have enough cushion to keep my horses backs happy.””

— Robert Mendoza- Grand Prix Show Jumper

Specifications

Length	55 cm
Width	57 cm
Amount of layers	2
Thickness	18 mm
Drive system	780 gram
Maschine wasable	30°C
