Features

Durability:

The hanging set is made of high-quality material, ensuring durability and long-lasting performance even in demanding environments.

Easy Installation:

Thanks to its user-friendly design, the hanging set is easy to install, saving valuable time when setting up the horse training arena. Each chain in the set has precise dimensions, ensuring uniform suspension of mesh panels.

Secure Attachment:

The shackle closures provide a secure and reliable attachment for the mesh panels, minimizing the risk of loosening or falling. The set of three chains is designed with a sturdy construction to provide ample support for the weight of the mesh panels, creating a stable environment.
