

Cross Tie Posts

Round Top

Cross Tie Post 1.5 meters with base / Article no. 18-4-00-00020

Tie posts offer an excellent solution for various settings, including wash areas, solariums, stalls, or any location where you need to securely tether your horse for grooming, clipping, or tacking up. The Q-Line Traditional Tie Posts offer a timeless method for ensuring your horse's safety. These posts can be easily and securely attached to concrete floors without the necessity of digging or concrete installation.

The tie posts are equipped with a flange with 4 holes for securing the tie post to the floor. The tie post is standard thermally galvanized but can optionally also be powder-coated.

This tie post is supplied with fastening material for easy installation. Ideal for securing horses on both sides.

- ✓ Sturdy
- ✓ Low maintenance
- ✓ Safe
