AquaTrainer Standard / Article no. 27-5-10-00010

**SOLARIUM****IRRIGATION****TREADMILL****SAFETY WALL****WALKER**

The AquaTrainer Standard offers a basic solution for aqua training with reliable and straightforward functionalities. Ideal for users looking for a compact and effective system, with optional upgrades for added safety and convenience.

The Benefits of the AquaTrainer Standard

The Q-Line AquaTrainer is the ultimate solution for strength training, rehabilitation, and relaxation for horses. This water trainer offers numerous benefits for both horse and trainer:

- **Effective Strength Training:** The water resistance strengthens the horse's muscles without stressing its joints and tendons.
- **Improves Topline:** During training, the horse uses more back and hindquarter muscles, resulting in a stronger topline, better balance, and improved coordination.
- **Optimal Rehabilitation:** Perfect for horses in recovery, thanks to its low impact on the skeleton and tendons.
- **Inclined Training:** The adjustable treadmill with a slope of 0–10% enhances muscle development and endurance.
- **Balance and Relaxation:** Aqua training promotes a straight, relaxed posture and keeps the horse mentally fresh and physically supple.

Flexibility and Ease of Use

- **Individual Training Programs:** With up to 200 adjustable programs, the trainer provides a tailored approach for every horse.
- **Quick Preparation:** The water level reaches 60 cm working height in just 2.5 minutes, giving you more time for training.
- **Easy to Clean:** The hygienic stainless steel design prevents dirt buildup and is easy to maintain.

The Technology Behind the AquaTrainer

Safety and Comfort

- **Safety Glass and Doors:** On both sides for easy access and full visibility of the horse.
- **Light Beam Sensor:** Automatically stops the treadmill when the horse moves outside the beam.
- **Flexible Chest Bar:** Allows the horse to move naturally and comfortably and is easy to release during training.

Advanced Water and Filtration System

- **Energy-Efficient Filtration:** Up to 80% energy savings with automatic sand filters and stainless steel pumps.
- **UV-C Disinfection:** Ensures a hygienic training system with

- ✓ Complete Versatility:
- ✓ Perfect Water Management
- ✓ Innovative Technology
- ✓ Space-Saving Design
- ✓ Professional Results
- ✓ Easy Installation

Features

Features of the AquaTrainer Standard

Standard Equipment:

- **Built-In System:** Designed for in-ground installation to save space and enhance usability.
- **Compact Design:** Includes a 600-liter water tank, perfect for effective aqua training.
- **Reliable Filtration:** Pump station with two 200-micron pre-filters and a capacity of 950 liters per minute for optimal water circulation and clarity.
- **Smart Operation:** Remote control via smartphone for maximum flexibility and convenience.
- **Debris Management:** Includes a set of two filters to prevent debris buildup in the water.

Optional Extras:

- **Safety Bumper:** Extra security at the rear door, ideal for new or nervous horses.
- **Installation and Transport:** Professional service for safe delivery and proper installation.

Installation Requirements:

- A customer-prepared infrastructure, including:
 - Water supply and drainage lines.
 - A floor opening to accommodate the treadmill.
 - Electrical outlets for connecting the AquaTrainer.

Summary:

The AquaTrainer Standard offers a basic solution for aqua training with reliable and straightforward functionalities. Ideal for users seeking a compact and effective system, with optional upgrades for added safety and convenience.

Specifications

Connection	400V 3F+N+E 50/60Hz
Fuse with	32A
Ampere	22,7A
Power usage	15,7 kW
Basic material	Stainless Steel
Secure	IR sensor
Length	Inner 380 cm / Outer 492 cm
Width	Inner 100 cm / Outer 188 cm
Height	Inner 154 cm / Outer 192 cm
Weight	1780 Kg
nr of horses	1
Speed	10 km/h
Suited for	Uphill 10%
Suplied as standard	Pump station, 600-liter tank, smartphone control, 2 diapers.
Optional	Backwash tank for saltwater, safety bumper
