

2 Layer Icelandic Saddle Pad

Saddle size 17 - 17,5 inch / 43 - 44,5 cm

Large Black / Article no. 810-5-02-24503

The anti-slip saddle pad from Sedelogic features a specially developed anti-slip fabric on the top side of the pad. As a result, the pad stays securely in place between the saddle and/or the saddle pad on the horse, without sliding. This pad is particularly suitable for riding without a saddle pad, as is customary for Icelandic horses, for example.

A saddle pad from Sedelogic is an essential accessory that offers numerous benefits for both your horse and yourself during riding. Here are several reasons why we highly recommend using a saddle pad.

Comfort and protection: A saddle pad provides extra comfort and cushioning between the saddle and your horse's back. It helps reduce pressure points and absorbs shocks during riding, allowing your horse to feel more comfortable and less prone to injuries.

Proper fit: A saddle pad can help accommodate minor irregularities in the saddle's fit. It can lift or fill the saddle slightly, distributing pressure more evenly across your horse's back. This can be especially useful if your horse has a slightly different back shape or if the saddle doesn't fit perfectly.

Sweat absorption: Horses can sweat significantly during riding. A high-quality saddle pad can absorb and wick away sweat, keeping your horse's back drier. This helps prevent skin irritations and chafing, which are essential for maintaining a healthy skin.

Hygiene: Using a saddle pad also facilitates the cleaning and maintenance of your saddle. It protects the saddle from direct contact with your horse's sweat and oils, prolonging its lifespan and reducing the accumulation of dirt. Moreover, the saddle pad can be easily removed and washed, allowing you to have a clean and fresh underlayer.

Overall, using a saddle pad offers numerous benefits for the well-being, comfort, and durability of your horse and saddle. It's important to choose a high-quality saddle pad that suits your specific needs and matches the type of saddle you use.

The Sedelogic saddle pad is the first saddle blanket developed for use under the horse's saddle, with extensive pressure measurements conducted. A team of veterinarians, technicians, a scientist from an academic hospital, and a renowned saddle maker have utilized aerospace techniques to develop this unique and performance-enhancing saddle pad. This saddle pad is suitable for all equestrian disciplines, catering to both top-level athletes and recreational riders.

- ✓ Perfect pressure distribution
- ✓ Super shock absorption
- ✓ Good ventilation
- ✓ Lightweight

Features

Discover the ultimate comfort and unrivaled performance of our revolutionary saddle pad. With a range of unique features, this pad provides a riding experience that you and your horse have never experienced before:

- **Excellent shock absorption:** Thanks to advanced technologies, our saddle pad offers unparalleled shock absorption. It absorbs every impact during riding, significantly reducing pressure on your horse's back. Enjoy a smoother ride and protect your horse's health.
- **Breathable structure:** Our saddle pad features a breathable structure that allows for optimal air circulation. This promotes ventilation and prevents heat and moisture buildup under the saddle. Your horse stays cooler and more comfortable, even during intense training sessions.
- **Perfect pressure distribution:** With an advanced design, our saddle pad ensures perfect pressure distribution over your horse's back. It minimizes pressure points and prevents discomfort while riding. This allows your horse to move freely and perform at its best.
- **Efficient heat dissipation:** Our saddle pad is designed to efficiently dissipate heat. The advanced material regulates temperature and prevents excessive heat buildup under the saddle. This keeps your horse cool and protected from overheating, even during long rides.
- **No pressure points:** Thanks to carefully engineered construction, our saddle pad eliminates pressure points completely. It evenly distributes the pressure across the entire surface, giving your horse full freedom of movement and unhindered performance. Prevent irritations and discomfort for a happy and healthy horse.

Experience the ultimate combination of comfort, protection, and performance with our innovative saddle pad. No more compromises when it comes to riding comfort and well-being. Choose a saddle pad that meets your highest demands and give your horse the ride it deserves.

““I have been using the Sedelogic pads for a number of years and am incredibly happy with them. From day one they have held their shape and are as good today as they were the first day I used them. They are thin enough to not affect the fit of my saddles, but have enough cushion to keep my horses backs happy.””

— Robert Mendoza- Grand Prix Show Jumper

Specifications

Length	56 cm
Width	29 cm
Amount of layers	2
Thickness	18 mm
Drive system	600 gram
Maschine wasable	30°C
