Battery Set for Roll-Up / Article no. 605-4-80-00001

**SOLARIUM****IRRIGATION****TREADMILL****SAFETY WALL****WALKER**

Are you looking for a practical solution to use your roll-up without being dependent on a power cord? Whether it's for use at competitions or in the stable, an extra battery set for your roll-up can provide the perfect solution. This guide offers you comprehensive information about the benefits, contents, and use of an extra battery set, allowing you to use your roll-up efficiently anywhere and anytime.

### **What is an Extra Battery Set for the Roll-Up?**

An extra battery set for the roll-up is a set that includes a portable bag with a battery, a battery cable, and a charger. This set is specially designed to enhance the mobility and ease of use of your roll-up, especially in situations where access to a power cord is limited or impossible.

### **Benefits of the Extra Battery Set**

**Mobility:** With the extra battery set, you can use your roll-up anywhere, even in remote areas such as stables or outdoor competitions.

**Convenience:** It eliminates the dependency on power cords, giving you more freedom and flexibility in using your roll-up.

**Easy Installation:** The set is easy to connect and use, contributing to a hassle-free experience.

### **How to Use the Battery Set**

The installation of the battery set is simple:

Place the battery in the provided bag.

Connect the battery to your roll-up using the battery cable.

Charge the battery with the included charger when needed.

### **Maintenance and Care for the Battery Set**

Regularly charge the battery to extend its lifespan.

Store the battery in a dry and cool place to prevent damage.

Regularly check the connectors and cables for wear or damage.

### **Buying Tips**

Choose a battery set from a reliable brand to ensure quality and durability.

Pay attention to the battery capacity to ensure it meets your needs.

Consider warranty and customer service when making your choice.

### **Conclusion:**

An extra battery set for the roll-up is an excellent investment for anyone who needs mobility and convenience in using their roll-up. Whether you are at a competition or working in the stable, this set ensures that your roll-up is always operational, without the limitations of a power cord. By choosing the right set and proper maintenance, you can be assured of an efficient and reliable solution for your roll-up needs.
