Safety Wall door and gate

Frame, Hinge, Shutter

Gate 1 panel / Article no. 30-4-30-00930

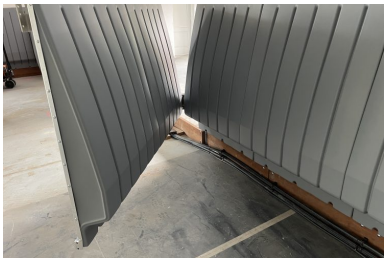

The Q-line Safety Wall can be fitted with gates that are essentially invisible to the eye when closed. These innovative gates create a perfectly smooth and seamless finish for your Safety Wall without sharp edges. The gates can contain a maximum of 3 panels and are equipped with a specially developed hinge so that the gate in the sloping wall opens horizontally.

- Light to open
- Seamless finish
- Easy assembly

Q-LINE.COM

Features

Safety:

By opening the gate horizontally, entrapment by a falling gate is excluded.

Durability:

Due to the robustness of the hinges and the frames, the gates are indestructible.

Appearance:

Invisible hinge concealed in the wall.

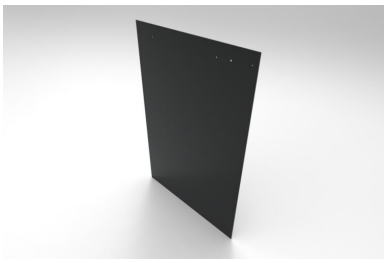

Maintenance:

The gate hinge does not require lubrication and is maintenance-free.

Easy to assemble:

Because the gate opens horizontally, mounting is very simple and the hinge can easily be mounted against a flat wall.

Standard options

Gate frame cover
