**Discover our exclusive Solarium Mercurr Standard Combo Deal:  
The perfect combination of the Q-Line solarium and the  
convenient control panel for the ultimate care of your horse!**

**Available for immediate delivery.**

#### **Q-Line Solarium:**

##### **Improved Blood Circulation and Muscle Relaxation:**

Thanks to the powerful infrared rays of the Q-Line solarium, muscle blood circulation is promoted, improving waste management and helping prevent injuries. The generated infrared heat ensures faster absorption of blood sugars and more efficient removal of lactic acid. Moreover, it relaxes the muscles during warm-ups for training or competitions and provides the ideal drying environment after a wash.

##### **Energy-Efficient and Efficient:**

The Q-Line solarium is not only energy-efficient but also extremely efficient. Specially formulated plastic parts minimize heat loss, while the fan airflow is heated by residual heat inside the solarium. The infrared lamps are designed to reach higher temperatures, guaranteeing optimal results.

##### **Compact and Comfortable:**

The Mercurr, made of impact-resistant, heat-resistant plastic, is perfect for limited spaces. With its compact shape and round opening at the horse's neck, it provides a pleasant warmth blanket thanks to the combination of 22 lamps and 4 fans.

#### **Control Panel:**

Our simple control panel makes using the Q-Line solarium even more convenient:

Infrared Control (IR): Effortlessly switch the infrared lamps on and off with the manual switch.

Fan Control (AB): Adjust the fans with the 3-position switch for off, automatic, or constant airflow.

With our Solarium Mercurr Standard Combo Deal, your horse enjoys the ultimate care and recovery after exertion.

**Order now and provide your horse with the care it deserves!**

- ✓ Chamfered neck part
- ✓ Rounded edges
- ✓ Good heat partition
- ✓ Suitable for washroom
- ✓ Automatic Circulation air blower
- ✓ CE Marking

## Features

### Safety:

The Q-Line® solariums are finished with rounded sides and corners, eliminating the risk of injury to your horse. The lamps are positioned higher than the surfaces and cannot fall out of the sockets, minimizing the chance of contact with the warm IR lamps.

### Durability:

Q-Line® solariums consume up to 40% less energy than competing solariums, making them more environmentally friendly. The heat-resistant plastic is resistant to corrosion, ensuring minimal heat loss and high efficiency. The infrared lamps in the Q-Line® solariums are designed to withstand prolonged intense heat, unlike other lamps, and can burn for up to 5000 hours.

### Appearance:

Q-Line® solariums have a stylish appearance and a sleek finish. All solariums are plug-and-play and can be easily installed. The fans automatically turn on at an internal temperature of 30 degrees Celsius, preventing cold air from blowing over your horse.

### Maintenance:

The solariums require very little maintenance. Due to the technologically advanced design and materials used, there is virtually no wear or corrosion, reducing the need for maintenance.

### Certification:

All solariums comply with the machinery directive 2006/42/EC and are standardly equipped with the CE mark. Additionally, Q-Line® solariums are factory-inspected according to NEN 3140 and ARBO guidelines, meeting all European safety requirements.

## Specifications

<b>Length</b>	190 cm
<b>Width</b>	132 cm
<b>Thickness</b>	40 cm
<b>Drive system</b>	45Kg
<b>Basic material</b>	Reinforced heat resisting plastic
<b>Colour</b>	Black
<b>Number of IR lamps</b>	22 x 150 Watt
<b>Power supply</b>	L+N+PE 230 Volt
<b>Power usage</b>	3420 Watt
<b>Fuse with</b>	16 A
<b>IP rating</b>	IP 54
<b>Air blower</b>	4x 90m3, automatic at 30grC
<b>Suspension</b>	4x chains (1 meter) and swing hooks
<b>Supplied as standard</b>	Power cable 10 mtr including plugs
<b>Quality mark</b>	CE / NEN 3140 / OSH
<b>Transport weight</b>	65 kg
<b>Transport size</b>	1 pallet 120x80x220 cm
<b>Included</b>	21-5-80-10003 solarium control box
