

Wash bay arm

Galvanized arm

Wash bay water arm / Article no. 18-5-00-00040

The wash bay arm consists of a fixed part and an adjustable tube. The hose is connected to a water connection by means of a garden coupling. The hose runs through the steel pipe. With the robust aluminum spray gun, spraying your horse becomes a simple job.

- ✓ Rotatable
- ✓ Adjustable
- ✓ Easy to assemble
