Aluminium push panel tube suitable for safety flex drop rod

Push panel tube aluminium 10 holes 3 mtr / Article no. 23-4-80-00160

Replacement aluminum push panel tube, for light weight push panel with rods or mesh panels.

- ✓ Light weight
- ✓ Safe
- ✓ Shock conducting

**SOLARIUM****IRRIGATION****TREADMILL****SAFETY WALL****WALKER**

Features

Safety:

The lightweight tubes push panels are designed as safely as possible and come include shock conductive parts.

Sustainability:

By using high-quality industrial parts, we can guarantee a very long lifespan. Due to a technologically advanced design, the walker rotates almost silently and very lightly, making the Q-line® exercise mills particularly energy-efficient.

Appearance:

The push panels are suspended at a height of 2 meters and consist of an aluminum cross tube containing 1,6 meter long impact-resistant plastic tubes wrapped with a stainless steel spring for shock conduction.

Maintenance:

Due to the technologically advanced design and the materials used, there is virtually no wear or corrosion, which minimizes maintenance.

Quality marks:

All parts comply with the machine directive 2006/42EG and are standard provided with the correct quality marks, the Q-line® products are also certified ex-factory in accordance with the NEN 3140 and ARBO directive and therefore meet all European safety requirements.

Specifications

Basic material	Aluminium
Suited for	10 plastic drop rods with a diameter of 29 mm
Suspension	Not included
Other	Comes with end caps
Drift Fence	Suitable for safety flex drop rod
Length	3 meter
Diameter	60 mm
Weight	4,5 kg
Transport weight	10Kg
Transport size	0,2 x 3 meter
